

### **Thermofoil Cleaning Tips**

Wipe with damp cotton cloth or sponge with mild dish soap for regular cleaning.

For stains, standard Fantastik (S.C. Johnson) or standard Formula 409 (The Clorox Co.) may be used, wiping lightly for 10-20 strokes.

Avoid any abrasive cleaners, solvent based cleaners, and harsh chemicals such as sink and toilet bowl cleaners, cleaners containing ammonia, baking soda, and brushes in combination with any cleaner.

**WARNING:** Prolonged exposure of the laminate surface to bleach will cause discoloration. Always rinse laminate surfaces after cleaning! Failure to rinse after cleaning can cause damage; even if a small amount of cleaning solution remains on the surface. A dry residue may be invisible; however, moisture from cups or drinks can reactivate it, and result in permanently etched scars or stains over time.

### **Recommended Household Cleaners:**

- Clorox®\*
- Formula 409®
- Dawn®
- Glass Plus®
- Dow Bathroom Cleaner with Scrubbing Bubbles™
- Fantastik®
- Favor®
- Windex®
- Lestoi®
- Pledge®
- Grease Relief®
- Lysol® Brand Disinfectant Basin/Tub/Tile Cleaner
- Mr. Clean®
- TOP JOB®

\* Prolonged exposure can mar the surface

## **A Few Notes of Caution**

**Acidic** or **abrasive** cleaners can damage laminate surfaces; do not use them. Drain cleaners containing lye will permanently damage the laminate surface. If you spill a drain cleaner, wipe it up immediately and rinse several times with water.

Hair, textile and food **dyes** can cause permanent stains. If dye should happen to spill, wipe it up immediately with dishwashing detergent or an all-purpose cleaner.

Wipe spills away promptly and rinse several times with water.

**Rust removers** contain harsh chemicals, which will quickly cause permanent damage. If a spill occurs, wipe off all residue immediately, wash thoroughly with soapy water and rinse several times.

**Steel wool** and other abrasive pads will damage the laminate face. Do not use them for cleaning; the metal can rust and leave stains.

**Toilet** bowl cleaners contain harsh chemicals that can cause permanent damage. If spills occur, wipe up immediately, wash surface with soapy water and rinse several times.
