

Brilliant Function. Beautiful Design.

A-4030 Vertical Height Adjustment Arm

Brilliant Function. Beautiful Design.

Our new variable height arm system is strong enough to support the weight of a keyboard and monitor and still be raised and lowered with minimal effort. With different options to choose from, the arm can be mounted in one of our Bayview Series Cabinet, or by itself using our New Wall Mount System. Both options are customizable to suit your specific needs.

Features

- Antimicrobial baked on powder coated finish. Select from 5 standard colors, custom RAL finishes available.
- Arm can be accented in 3 D laminate, select from over 35 wood finishes
- Can accommodate All in one monitor (CPU touch screen monitor combo computer), laptops, tablets, universal CPU holder, keyboard trays, and monitor(s).
- Optional storage rail can hold wireless and tethered scanners, printers, sharps containers, storage baskets, etc.
- Track is easy to install, no special wall backing necessary. Cover plate for track has smooth, easy to clean surface.
- Easy to use power assisted arm for sit to stand adjustment.
- Duel arm extensions fold together provides compact storage.
- Built-in duel thrust bearings provide smooth and efficient operation.

Dimensions

- Track is 3" W by 31" H, keyboard tray is 23" W, when closed in upright position, the entire arm is only 8" from wall.
